- b. Approve air service agreement with American Airlines providing for a minimum revenue guarantee to be capped at \$2 million per fiscal year and approve the associated budget amendment allocating \$1 million for revenue shortfall for the first period ending June 30, 2022

Airport Director Paul Priegel reported that due to the severe impact of the COVID-19 pandemic on air travel across the nation, especially our community, American Airlines has requested financial support in

order to continue air service throughout the recovery period of the pandemic. Airlines are facing increased operational costs due to unusually high fuel prices and lower ridership. In addition to this, airlines are seeing an unprecedented pilot and other staffing shortage, forcing the airlines to prioritize which markets to keep and which markets in which to end service. Mr. Priegel stated regional markets are being hit among the hardest as many of the pilots are being moved to larger aircraft to support more substantial routes. This has resulted in regional service cuts across the nation with many remaining regional markets having to enter into agreements to provide revenue guarantees to ensure airlines don't suffer additional revenue shortfalls during the recovery period. Mr. Priegel reported that the agreement would provide for a Minimum Revenue Guarantee to be capped at \$2 million per fiscal year with the following structure:

- Up to \$1 million from Jan 1-Jun 30, 2022
- Up to \$2 million from Jul 1, 2022-Jun 30, 2023
- Up to \$1 million from Jul 1-Dec 31, 2023

Council created a Citizen's Task Force to work with the consultant in selecting appropriate types of improvements to minimize impact to businesses and residents along the corridor. Mr. Karns introduced Russell Beatty, Olsson and Associates.

Mr. Beatty presented the study and alternatives for the Conceptual Husband Street Bike Corridor route between south of McElroy to Boomer Road. Discussion was held regarding various options for the bike corridor. Mr. Karns and Mr. Beatty addressed and answered Council's questions.

- d. Authorize deferred maintenance projects to include the following: drainage, channel and dam maintenance, sidewalks and minor street improvements, and erosion revetment at Boomer Lake; and approve budget amendments appropriating funds not to exceed \$1,125,000 for the projects

Director of City Engineering Monty Karns reported that Public Works has been hit hard by the pandemic and lack of manpower that has resulted to some extent in the inability to complete projects. The projects include drainage, channel and dam maintenance, sidewalks and minor street improvements. Most of these projects are relatively small and bidding them as individual capital construction projects is not cost effective. Mr. Karns stated that City Engineering is requesting authorization to create construction projects for deferred maintenance items and the Boomer Lake revetment and establish priority for completion of projects and use of funds. Total project costs are not to exceed \$1,125,000 without Council authorization.

MOTION BY VICE MAYOR ZANNOTTI, SECOND BY COUNCILOR HAWKINS TO AUTHORIZE DEFERRED MAINTENANCE PROJECTS TO INCLUDE THE FOLLOWING: DRAINAGE, CHANNEL AND DAM MAINTENANCE, SIDEWALKS AND MINOR STREET IMPROVEMENTS, AND EROSION REVETMENT AT BOOMER LAKE; AND APPROVE BUDGET AMENDMENTS APPROPRIATING FUNDS NOT TO EXCEED \$1,125,000 FOR THE PROJECTS.

- e. Approve retaining Gose & Associates under the Master Services Agreement to provide a Traffic Engineering Study of Duck Street between 6th Avenue and Hall of Fame Avenue and allocate \$25,000 from FY20 Pavement Management funds for the completion of the study

Director of City Engineering Monty Karns reported that staff have received several requests from the public to calm traffic along Duck Street with a road diet similar to Duck Street between 12th and 6th Avenues. Due to the amount of traffic north of 6th Avenue on Duck Street and the nature of the traffic, numerous drives-traffic signals, and the volume of traffic, engineering staff's concern is a road diet is not an appropriate treatment at this location without a detailed study. Mr. Karns stated that a traffic engineering study of the section of Duck Street between 6th and Hall of Fame Avenues would be beneficial in determining:

- traffic calming measures for the existing conditions;
- possible improvements at selected intersections to reduce conflicts and improve safety;
- whether improvements made now will be compatible with the concept to make Duck Street a boulevard.

Mr. Karns stated that the engineering staff proposes to utilize Gose & Associates through the Master Services Agreement to provide administrative and other services while working with Traffic Engineering Consultants' Tulsa office to perform the traffic engineering study. He reported that the City Engineering staff requests approval of \$25,000 for the project, which includes contingency.

MOTION BY COUNCILOR HAWKINS, SECOND BY COUNCILOR DZIALOWSKI TO APPROVE RETAINING GOSE & ASSOCIATES UNDER THE MASTER SERVICES AGREEMENT TO PROVIDE A TRAFFIC ENGINEERING STUDY OF DUCK STREET BETWEEN 6TH AVENUE AND HALL OF FAME AVENUE AND ALLOCATE \$25,000 FROM FY20 PAVEMENT MANAGEMENT FUNDS FOR THE COMPLETION OF THE STUDY.
